Lunt's Heath Primary School Safeguarding Statement

“Lunt's Heath Primary School is committed to safeguarding and promoting the welfare of children and young people and expects all staff and visitors to share this commitment.”

Lunt's Heath Primary School Equality Statement

“Lunt's Heath Primary School promotes equal opportunities for all pupils, staff and service users. We ensure that all persons have equal access to the full range of opportunities provided by the school. We celebrate diversity and actively encourage respect for all as well as promoting fairness and justice in the education that we provide.”

SCOPE

In the interests of pupil safety, the school maintains a zero tolerance attitude to the misuse of electronic media, including bullying, in any form and maintains high expectations in keeping everyone safe. We recognise the need to discuss aspects of e-Safety by maintaining its high profile. This policy relates to the aspects of setting out our zero tolerance approach, having high expectations of all users, and managing incidents of reported misuse.

This policy applies equally to all pupils, staff, Governors and visitors to the school.

AUTHORITY

We wish to ensure that every child remains safe at Lunt's Heath Primary School, whilst striving for the highest possible standards of pupil engagement. Lunt's Heath Primary School recognises the importance of e-Safety management and gives the highest importance to the safeguarding and welfare of children.

Section 26 of the Counter-Terrorism and Security Act 2015 (the Act) places a duty on certain bodies ("specified authorities" listed in Schedule 6 to the Act), in the exercise of their functions, to have "due regard to the need to prevent people from being drawn into terrorism" (Prevent Duty Guidance, *HM Government* 2015). All members of staff must have regard to this guidance when carrying out that duty.

STATEMENT OF POLICY

ICT in the 21st Century is seen as an essential resource to support learning and teaching, as well as playing an important role in the everyday lives of children, young people and adults. Lunt's Heath Primary School is committed to building in the use of these technologies in order to arm our young people with the skills to access life-long learning and employment.

Information and Communications Technology covers a wide range of resources including; web-based and mobile learning. It is also important to recognise the constant and fast paced evolution of ICT within our society as a whole. Currently the internet technologies children and young people are using both inside and outside of the classroom include:

- Websites
- Virtual Learning Platforms
- Email and Instant Messaging
- Chat Rooms and Social Networking
- Forums, Wikis and Blogs
- Podcasting
- Video Broadcasting
- Music Downloading
- Gaming
- Mobile / Smart phones with text, video and / or web functionality
- Other mobile devices with web functionality

Whilst exciting and beneficial both in and out of the context of education, much ICT, particularly web-based resources, are not consistently policed. All users need to be aware of the range of risks associated with the use of these Internet technologies.

We understand the responsibility to educate our pupils on e-Safety issues; teaching them the appropriate behaviours and critical thinking skills to enable them to remain both safe and legal when using the internet and related technologies, in and beyond the context of the classroom.

Both this policy and the Acceptable Use Agreement (for all staff, Governors, visitors and pupils) are inclusive of both fixed and mobile internet technologies provided by the school (such as PCs, laptops, personal digital assistants (PDAs), tablets, webcams, whiteboards, voting systems, digital video equipment, etc); and technologies owned by pupils and staff, but brought onto school premises utilising the school's network (such as laptops, mobile phones, camera phones, PDAs and portable media players, etc).

We will educate our pupils to prevent them from being drawn into terrorism and radicalisation, teaching them of the risks that are present, and ensuring that they are given appropriate advice and support. We want Lunt's Heath to be a safe space in which children and young people can understand and discuss sensitive topics, including terrorism and the extremist ideas that are part of terrorist ideology, and learn how to challenge these ideas. We will ensure children are safe from terrorist and extremist material when accessing the internet in school, including by having established appropriate levels of filtering through the Local Authority.

RESPONSIBILITY

The Governors, with the advice of the Headteacher, have the overall responsibility to ensure that the policy and practices are embedded and monitored. All Governors should have an understanding of the issues and strategies at our school in relation to local and national guidelines and advice.

The Headteacher has the overall responsibility to ensure that the policy and practices are embedded and monitored regularly. The Headteacher will be the designated Single Point Of Contact (SPOC) and must undertake Prevent training in fulfilling their duties.

The eSafety Coordinator in this school, as a designated member of the Senior Leadership Team, is Mr Williams. All members of the school community have been made aware of who holds this post. It is the role of the e-Safety Co-ordinator to keep abreast of current issues and guidance through organisations such as Halton LA, CEOP (Child Exploitation and Online Protection) and Childnet, and to up-date all staff.

The e-safety Coordinator is responsible for ensuring the web filtering system is at a minimum acceptable level and report any concerns to the SPOC.

The Subject Leader has responsibility for ensuring all staff have received appropriate and relevant training to sufficiently deliver this policy.

All Staff are responsible for their own actions under the Acceptable Use Agreement and in keeping with the Staff Code of Conduct. Staff must

immediately report any incident which breaches e-Safety, **in particular under the Prevent Duty**, to the e-Safety Coordinator.

All staff are responsible for identifying children who may be vulnerable to radicalisation and must follow these steps:

- assess the risk of children being drawn into terrorism, including support for extremist ideas that are part of terrorist ideology;
- keep children safe from terrorist and extremist material when accessing the internet in school, which includes educating children how to safe online;
- provide a safe environment which embeds British Values within the curriculum building resilience to radicalisation and encouraging debate that helps children understand how to influence and participate in decision making.

If you have any concerns you should immediately inform the ***Single Point of Contact person (the Headteacher)***.

ADDITIONAL GUIDANCE

e-Safety skills development for staff

- Our staff receive regular information and training on e-Safety issues in the form of regular staff training.
- New staff receive information on the school's acceptable use policy as part of their induction.
- All staff have been made aware of individual responsibilities relating to the safeguarding of children within the context of e-Safety and know what to do in the event of misuse of technology by any member of the school community.
- All staff are encouraged to incorporate e-Safety activities and awareness within their curriculum areas.

Managing the school e-Safety messages

- We endeavour to embed e-Safety messages across the curriculum whenever the internet and / or related technologies are used.
- The e-safety policy will be introduced to the pupils at the start of each school year.
- E-safety posters will be prominently displayed.

e-Safety in the Curriculum

- Educating pupils on the dangers of technologies that may be encountered outside school is done informally when opportunities arise and as part of the e-Safety curriculum.
- Pupils are taught about copyright and respecting other people's information, images, etc through discussion, modelling and activities.
- Pupils are aware of the impact of online bullying and know how to seek help if they are affected by these issues. Pupils are also aware of

where to seek advice or help if they experience problems when using the internet and related technologies; i.e. parent / carer, teacher / trusted staff member, or an organisation such as Childline / CEOP report abuse button.

Password Security

- All users read and sign an Acceptable Use Agreement to demonstrate that they have understood the school's e-Safety Policy.
- Pupils are not allowed to deliberately access on-line materials or files on the school network, of their peers, teachers or others.
- If you think your password may have been compromised or someone else has become aware of your password report this to the Headteacher.
- Staff are aware of their individual responsibilities to protect the security and confidentiality of school networks, SIMS MIS system and / or Virtual Learning Platform, including ensuring that passwords are not shared and are changed periodically. Individual staff users must also make sure that workstations are not left unattended and are locked.
- Due consideration should be given when logging into the Virtual Learning Platform to the browser / cache options (shared or private computer).
- In our school, all ICT password policies are the responsibility of the Headteacher and all staff and pupils are expected to comply with the policies at all times.

Data Security

The accessing of school data is something that the school takes very seriously. The school follows Becta guidelines (published Autumn 2008). Staff are aware of their responsibility when accessing school data. They must not:

- allow others to view the data;
- edit the data unless specifically requested to do so by the Headteacher.

Managing the Internet

The internet is an open communication medium, available to all, at all times. Anyone can view information, send messages, discuss ideas and publish material which makes it both an invaluable resource for education, business and social interaction, as well as a potential risk to young and vulnerable people. All use of the **Halton Internet Web Filtering Systems** is logged and the logs are randomly monitored. Whenever any inappropriate use is detected it will be followed up by Halton Borough Council through its e-Safety responsibilities.

- Pupils will have supervised access to Internet resources (where reasonable) through the school's fixed and mobile internet technology.
- Staff will preview any recommended sites before use.
- Raw image searches are discouraged when working with pupils.
- If Internet research is set for homework, specific sites will be suggested that have previously been checked by the teacher. It is advised that parents recheck these sites and supervise this work. Parents will be advised to supervise any further research.
- All users must observe software copyright at all times. It is illegal to copy or distribute school software or illegal software from other sources.
- All users must observe copyright of materials from electronic resources.

INFRASTRUCTURE

Halton Local Authority has a monitoring solution where web-based activity is monitored and recorded.

- School internet access is controlled through the LA's web filtering service.
- The school is aware of its responsibility when monitoring staff communication under current legislation and takes into account; Data Protection Act 1998, The Telecommunications (Lawful Business Practice) (Interception of Communications) Regulations 2000, Regulation of Investigatory Powers Act 2000, Human Rights Act 1998.
- Staff and pupils are aware that school based email and internet activity can be monitored and explored further if required.
- The school does not allow pupils access to internet logs.
- The school uses management control tools for controlling and monitoring workstations.
- If staff or pupils discover an unsuitable site, the screen must be switched off / closed and the incident reported immediately to the e-Safety Co-ordinator.
- It is the responsibility of the school, by delegation to the network manager, to ensure that Anti-virus protection is installed and kept up-to-date on all school machines.
- Pupils and staff are not permitted to download programs or files on school based technologies without seeking prior permission from the Headteacher.

NOTE for schools – the reference to Halton Local Authority and its web filtering systems is based on the school purchasing the relevant Council's web filtering SLA.

Managing other Web 2 technologies

Web 2 / Social networking sites, if used responsibly both outside and within an educational context can provide easy to use, creative and free facilities. However it is important to recognise that there are issues regarding the appropriateness of some content, contact, culture and commercialism. To this end, we encourage our pupils to think carefully about the way that information can be added and removed by all users, including themselves, from these sites.

- At present, the school endeavours to deny access to social networking sites to pupils within school. It is also noted that the age of the children would suggest that they are too young to sign up to social networking sites but may have access to them. Therefore all the advice and teaching is given in context of being SMART on line.
- All pupils are advised to be cautious about the information given by others on sites, for example users not being who they say they are.
- Pupils are taught to avoid placing images of themselves (or details within images that could give background details) on such sites and to consider the appropriateness of any images they post due to the difficulty of removing an image once online.
- Pupils are always reminded to avoid giving out personal details on such sites which may identify them or where they are (full name, address, mobile / home phone numbers, school details, IM / email address, specific hobbies / interests).
- Our pupils are advised to set and maintain profiles on such sites to maximum privacy and deny access to unknown individuals.
- Pupils are encouraged to be wary about publishing specific and detailed private thoughts online.
- Our pupils are asked to report any incidents of bullying to the school.
- Staff may only create blogs, wikis or other web 2 spaces in order to communicate with pupils using the LA Learning Platform or other systems approved by the Headteacher.

Mobile technologies

Many emerging technologies offer new opportunities for teaching and learning including a move towards personalised learning and 1:1 device ownership for children and young people. Many existing mobile technologies such as portable media players, PDAs, gaming devices, mobile and Smart phones are familiar to children outside of school too. They often provide a collaborative, well-known device with possible internet access and thus open up risk and misuse associated with communication and internet use. Emerging technologies will be examined for educational benefit and the risk assessed before use in school is allowed. Our school chooses to manage the use of these devices in the following ways so that users exploit them appropriately.

Personal Mobile devices (including phones)

- The school allows staff to bring in personal mobile phones and devices for their own use. Under no circumstances does the school allow a member of staff to contact a pupil or parent / carer using their personal device.
- Pupils are not allowed to bring personal mobile devices / phones to school unless with the prior approval of the school and for their use in contacting parents / carers out of school hours.
- The school is not responsible for the loss, damage or theft of any personal mobile device.
- The sending of inappropriate text message or email content between any member of the school community is not allowed.
- Permission must be sought before any image or sound recordings are made on these devices of any member of the school community.
- Users bringing personal devices into school must ensure there is no inappropriate or illegal content on the device.
- Staff should not contact pupils outside normal school hours.

School provided Mobile devices (including phones)

- The sending of inappropriate text message or email content between any member of the school community is not allowed.
- Permission must be sought before any image or sound recordings are made on the devices of any member of the school community.
- Where the school provides mobile technologies such as phones, laptops and PDAs for offsite visits and trips, only these devices should be used.
- Where the school provides a laptop for staff, only this device may be used to conduct school business outside of school.

Managing email

The use of email within most schools is an essential means of communication for both staff and pupils. In the context of school, email should not be considered private. Educationally, email can offer significant benefits including; direct written contact between schools on different projects, be they staff based or pupil based, within school or international. We recognise that pupils need to understand how to style an email in relation to their age and good 'netiquette'.

- The school gives all staff their own email account to use for all school business. This is to minimise the risk of receiving unsolicited or malicious emails and avoids the risk of personal profile information being revealed.

- It is the responsibility of each account holder to keep the password secure. For the safety and security of users and recipients, all mail is filtered and logged; if necessary email histories can be traced. This should be the account that is used for all school business.
- Under no circumstances should staff contact pupils, parents or conduct any school business using personal email addresses.
- The school requires a standard disclaimer to be attached to all email correspondence, stating that, 'the views expressed are not necessarily those of the school or the LA'. The responsibility for adding this disclaimer lies with the account holder.
- E-mail sent to an external organisation should be written carefully before sending, in the same way as a letter written on school headed paper.
- Staff sending emails to external organisations, parents / carers or pupils are advised to cc. the Headteacher, line manager or designated account.
- Pupils may only use school approved accounts on the school system and only under direct teacher supervision for educational purposes.
- Children use a class / group email address.
- The forwarding of chain letters this includes jokes and funny statements is not permitted in school.
- All e-mail users are expected to adhere to the generally accepted rules of network etiquette (netiquette) particularly in relation to the use of appropriate language and not revealing any personal details about themselves or others in e-mail communication, or arrange to meet anyone without specific permission, virus checking attachments.
- Pupils must immediately tell a teacher / trusted adult if they receive an offensive e-mail.
- Staff must inform (the e-Safety Co-ordinator / line manager) if they receive an offensive e-mail.
- Pupils are introduced to email as part of the ICT Scheme of Work.

Safe Use of Images - Taking of Images and Film

Digital images are easy to capture, reproduce and publish and, therefore, misused. We must remember that it is not always appropriate to take or store images of any member of the school community or public, without first seeking consent and considering the appropriateness.

- With the written consent of parents / carers (on behalf of pupils) and staff, the school permits the appropriate taking of images by staff and pupils with school equipment.
- Staff are not permitted to use personal digital equipment, such as mobile phones and cameras, to record images of pupils, this includes when on field trips. However, with the express permission of the

Headteacher, images can be taken provided they are transferred immediately and solely to the school's network and deleted from the staff device.

- Pupils are not permitted to use personal digital equipment, including mobile phones and cameras, to record images of the others, this includes when on field trips. However, with the express permission of the Headteacher, images can be taken provided they are transferred immediately and solely to the school's network and deleted from the pupils device.

Consent of adults who work at the school

Permission to use images of all staff who work at the school is sought on induction and a copy is located in the personnel file.

Publishing pupil's images and work

On a child's entry to the school, all parents / carers will be asked to give permission to use their child's work / photos in the following ways:

- on the school web site, Facebook and Twitter feeds
- on the school's Learning Platform
- in the school prospectus and other printed publications that the school may produce for promotional purposes
- recorded / transmitted on a video or webcam
- in display material that may be used in the school's communal areas
- in display material that may be used in external areas, i.e. exhibition promoting the school
- general media appearances, e.g. local / national media / press releases sent to the press highlighting an activity (sent using traditional methods or electronically)

This consent form is considered valid for the entire period that the child attends this school unless there is a change in the child's circumstances where consent could be an issue, e.g. divorce of parents, custody issues, etc.

Parents / carers may withdraw permission, in writing, at any time. Consent has to be given by both parents in order for it to be deemed valid.

Pupils' names will not be published alongside their image and vice versa. E-mail and postal addresses of pupils will not be published. Pupils' full names will not be published.

Before posting student work / images on the Internet, a check needs to be made to ensure that permission has been given for work to be displayed.

Storage of Images

- Images / films of children are stored on the school's network .

- Pupils and staff are not permitted to use personal portable media for storage of images (e.g., USB sticks) without the express permission of the Headteacher.
- Rights of access to this material are restricted to the teaching staff and pupils within the confines of the school network / Learning Platform.
- **The person making the post** has the responsibility of deleting the images when they are no longer required, or the pupil has left the school.

Webcams and CCTV

- We do not use publicly accessible webcams in school.
- Webcams in school will only ever be used for specific learning purposes, i.e. monitoring hens' eggs and never using images of children or adults.
- Misuse of the webcam by any member of the school community will result in sanctions (as listed under the ' inappropriate materials' section of this document)
- Consent is sought from parents / carers and staff on joining the school, in the same way as for all images.

Video Conferencing

- Permission is sought from parents and carers if their children are involved in video conferences.
- Permission is sought from parents and carers if their children are involved in video conferences with end-points outside of the school.
- All pupils are supervised by a member of staff when video conferencing.
- All pupils are supervised by a member of staff when video conferencing with end-points beyond the school.
- The school will keep a record of video conferences, including date, time and participants.
- Approval from the Headteacher is sought prior to all video conferences within school.
- The school conferencing equipment is not set to auto-answer and is only switched on for scheduled and approved conferences.
- No part of any video conference is recorded in any medium without the written consent of those taking part.

Misuse and Infringements

Complaints

Complaints relating to e-Safety should be made to the e-Safety co-ordinator or Headteacher. Incidents should be logged on.

Inappropriate material

- All users are aware of the procedures for reporting accidental access to inappropriate materials. The breach must be immediately reported to the e-Safety co-ordinator.
- Deliberate access to inappropriate materials by any user will lead to the incident being logged by the e-Safety Co-ordinator, depending on the seriousness of the offence; investigation by the Headteacher / LA, immediate suspension, possibly leading to dismissal and involvement of Police for very serious offences.
- Users are made aware of sanctions relating to the misuse or misconduct by formal interview and follow up letter from the Headteacher.

Equal Opportunities

Pupils with additional needs

The school endeavours to create a consistent message with parents for all pupils and this in turn should aid establishment and future development of the schools' e-Safety rules. However, staff are aware that some pupils may require additional teaching including reminders, prompts and further explanation to reinforce their existing knowledge and understanding of eSafety issues.

Where a pupil has poor social understanding, careful consideration is given to group interactions when raising awareness of e-Safety. Internet activities are planned and well managed for these children.

Parental Involvement

- Parents / carers and pupils are actively encouraged to contribute to adjustments or reviews of the school e-Safety Policy by discussion through information events and annual questionnaires.
- Parents / carers are asked to read through and sign acceptable use agreements on behalf of their child on admission to school.
- Parents / carers are required to make a decision as to whether they consent to images of their child being taken / used in the public domain (e.g. on school website).
- The school disseminates information to parents / carers relating to e-Safety where appropriate in the form of;
 - Information and celebration evenings
 - Posters
 - Website / Learning Platform / Facebook / Twitter postings
 - Newsletter items
 - Learning platform training

SUPPORTING DOCUMENTS

This policy, supported by the school's acceptable use agreements for staff, Governors, visitors and pupils (appendices), is to protect the interests and safety of the whole school community. It is linked to the following school policies:

- Keeping Children Safe in Education; Statutory guidance for schools and colleges (2020)
- Working Together to Safeguard Children (2018)
- Human Rights Act 1998
- Rights of the Child 1989
- Prevent Duty Guidance (HM Government 2015)
- Prevent Strategy (HM Government 2011)
- What to do if you're worried a child is being abused (2015)
- Information Sharing (DfE: 2018)
- Safeguarding and Child Protection Policy
- Health and Safety Policy
- Behaviour Policy
- Anti-bullying Policy
- PSHCE Policy
- Safer Recruitment Policy & procedure
- Pupil Code of Conduct
- Staff Code of Conduct
- Data Handling & Recovery Policy
- Data Protection Policy
- Freedom of Information Act Policy & Appendices

APPENDIX A

Lunt's Heath Primary School Acceptable Use Agreement / Code of Conduct: Staff, Governors and Visitors

ICT and the related technologies such as email, the internet and mobile devices are an expected part of our daily working life in school. This policy is designed to ensure that all staff are aware of their professional responsibilities when using any form of ICT. All staff are expected to sign this policy and adhere at all times to its contents.

Any concerns or clarification should be discussed with the school e-Safety Coordinator.

- I will only use the school's email / Internet / Intranet / Learning Platform and any related technologies for professional purposes or for uses deemed 'reasonable' by the Headteacher or Governing Body.
- I will comply with the ICT system security and not disclose any passwords provided to me by the school or other related authorities.
- I will ensure that all electronic communications with pupils and staff are compatible with my professional role.
- I will not give out my own personal details, such as mobile phone number and personal email address, to pupils.
- I will only use the approved, secure email system(s) for any school business.
- I will ensure that personal data (such as data held on SIMS) is kept secure and is used appropriately, whether in school, taken off the school premises or accessed remotely. Personal data can only be taken out of school or accessed remotely when authorised by the Headteacher.
- I will not install any hardware or software without permission of the Headteacher.
- I will not browse, download, upload or distribute any material that could be considered offensive, illegal or discriminatory.
- Images of pupils and / or staff will only be taken, stored and used for professional purposes in line with school policy and with written consent of the parent / carer or staff member. Images will not be distributed outside the school network without the permission of the parent / carer, member of staff or Headteacher.
- I understand that all my use of the Internet and other related technologies can be monitored and logged and can be made available, on request, to the Headteacher.
- I will respect copyright and intellectual property rights.
- I will ensure that my online activity, both in school and outside school, will not bring my professional role into disrepute.

- I will support and promote the school's e-Safety Policy and help pupils to be safe and responsible in their use of ICT and related technologies.

User Signature

I agree to follow this code of conduct and to support the safe use of ICT throughout the school.

APPENDIX B

Lunt's Heath Primary School Primary Pupil Acceptable Use Agreement / e-Safety Rules (From Year Two)

- ✓ I will only use ICT in school for school purposes.
- ✓ I will only use my class email address when emailing.
- ✓ I will only open email attachments from people I know, or who my teacher has approved.
- ✓ I will only open / delete my own files.
- ✓ I will make sure that all ICT contact with other children and adults is responsible, polite and sensible.
- ✓ I will not deliberately look for, save or send anything that could be unpleasant or nasty. If I accidentally find anything like this I will tell my teacher immediately.
- ✓ I will not give out my own details such as my name, phone number or home address. I will not arrange to meet someone unless this is part of a school project approved by my teacher and a responsible adult comes with me.
- ✓ I will be responsible for my behaviour when using ICT because I know that these rules are to keep me safe.
- ✓ I know that my use of ICT can be checked and that my parent / carer will be contacted if a member of school staff is concerned about my eSafety.

User Signature

I agree to follow this code of conduct and to support the safe use of ICT throughout the school.

APPENDIX C

Lunt's Heath Primary School

Dear Parent / Carer,

ICT including the internet, email and mobile technologies, etc has become an important part of learning in our school. We expect all children to be safe and responsible when using any ICT.

Please read and discuss these e-Safety rules with your child and return the slip at the bottom of this page. If you have any concerns or would like some explanation please contact Mr Williams.

Parent / carer signature

We have discussed this and(child name) agrees to follow the e-Safety rules and to support the safe use of ICT at Lunt's Heath Primary School.

Parent / Carer Signature

Class Date

APPENDIX D

Lunt's Heath Primary School Acceptable Use Agreement:

Dear Parent / Carer,

ICT including the internet, learning platforms, email and mobile technologies have become an important part of learning in our school. We expect all pupils to be safe and responsible when using any ICT. It is essential that pupils are aware of e-Safety and know how to stay safe when using any ICT.

Pupils are expected to read and discuss this agreement with their parent or carer and then to sign and follow the terms of the agreement. Any concerns or explanation can be discussed with their class teacher or Mr Williams, school e-Safety Coordinator.

Please return the bottom section of this form to school for filing.

Pupil and Parent / Carer signature

We have discussed this document and(pupil name) agrees to follow the e-Safety rules and to support the safe and responsible use of ICT at Lunt's Heath Primary School.

Parent / Carer Signature

Pupil Signature.....

Class Date

APPENDIX E

School Incident Log

'School name' eSafety Incident Log

Details of ALL eSafety incidents to be recorded by the eSafety Coordinator. This incident log will be monitored termly by the Headteacher, Member of SLT or Chair of Governors. Any incidents involving Cyberbullying should be recorded on the 'Integrated Bullying and racist Incident Record Form 2'

Date & time	Name of pupil or staff member	Male or Female	Room and computer/ device number	Details of incident (including evidence)	Actions and reasons

Current Legislation

Acts relating to monitoring of email

Users of this list should note that legislation is open to change and should always verify that the references and versions given or linked are up to date before relying on them.

Data Protection Act 1998

The Act requires anyone who handles personal information to comply with important data protection principles when treating personal data relating to any living individual. The Act grants individuals rights of access to their personal data, compensation and prevention of processing.

<http://www.hms0.gov.uk/acts/acts1998/19980029.htm>

The Telecommunications (Lawful Business Practice) (Interception of Communications) Regulations 2000

<http://www.hms0.gov.uk/si/si2000/20002699.htm>

Regulation of Investigatory Powers Act 2000 (RIP)

Regulating the interception of communications and making it an offence to intercept or monitor communications without the consent of the parties involved in the communication. The RIP was enacted to comply with the Human Rights Act 1998. The Telecommunications (Lawful Business Practice) (Interception of Communications) Regulations 2000, however, permit a degree of monitoring and record keeping, for example, to ensure communications are relevant to school activity or to investigate or detect unauthorised use of the network. Nevertheless, any monitoring is subject to informed consent, which means steps must have been taken to ensure that everyone who may use the system is informed that communications may be monitored. Covert monitoring without informing users that surveillance is taking place risks breaching data protection and privacy legislation.

<http://www.hms0.gov.uk/acts/acts2000/20000023.htm>

Human Rights Act 1998

<http://www.hms0.gov.uk/acts/acts1998/19980042.htm>

Other Acts relating to e-Safety

Racial and Religious Hatred Act 2006

It is a criminal offence to threaten people because of their faith, or to stir up religious hatred by displaying, publishing or distributing written material which is threatening. Other laws already protect people from threats based on their race, nationality or ethnic background.

Sexual Offences Act 2003

The new grooming offence is committed if you are over 18 and have communicated with a child under 16 at least twice (including by phone or using the Internet) it is an offence to meet them or travel to meet them anywhere in the world with the intention of committing a sexual offence. Causing a child under 16 to watch a sexual act is illegal, including looking at images such as videos, photos or webcams, for your own gratification. It is also an offence for a person in a position of trust to engage in sexual activity with any person under 18, with whom they are in a position of trust. School has a copy of "*Children & Families: Safer from Sexual Crime*" document as part of the child protection pack.

For more information

www.teachernet.gov.uk

Communications Act 2003 (section 127)

Sending by means of the Internet a message or other matter that is grossly offensive or of an indecent, obscene or menacing character; or sending a false message by means of or persistently making use of the Internet for the purpose of causing annoyance, inconvenience or needless anxiety is guilty of an offence liable, on conviction, to imprisonment. This wording is important because an offence is complete as soon as the message has been sent: there is no need to prove any intent or purpose.

The Computer Misuse Act 1990 (sections 1 – 3)

Regardless of an individual's motivation, the Act makes it a criminal offence to gain:

- access to computer files or software without permission (for example using another person's password to access files)
- unauthorised access, as above, in order to commit a further criminal act (such as fraud)
- impair the operation of a computer or program

UK citizens or residents may be extradited to another country if they are suspected of committing any of the above offences.

Malicious Communications Act 1988 (section 1)

This legislation makes it a criminal offence to send an electronic message (e-mail) that conveys indecent, grossly offensive, threatening material or information that is false; or is of an indecent or grossly offensive nature if the purpose was to cause a recipient to suffer distress or anxiety.

Copyright, Design and Patents Act 1988

Copyright is the right to prevent others from copying or using work without permission. Works such as text, music, sound, film and programs all qualify for copyright protection. The author of the work is usually the copyright owner, but if it was created during the course of employment it belongs to the employer. Copyright infringement is to copy all or a substantial part of anyone's work without obtaining the author's permission. Usually a licence associated with the work will allow a user to copy or use it for limited purposes. It is advisable always to read the terms of a licence before you copy or use someone else's material. It is also illegal to adapt or use software without a licence or in ways prohibited by the terms of the software licence.

Public Order Act 1986 (sections 17 – 29)

This Act makes it a criminal offence to stir up racial hatred by displaying, publishing or distributing written material which is threatening. Like the Racial and Religious Hatred Act 2006 it also makes the possession of inflammatory material with a view of releasing it a criminal offence.

Protection of Children Act 1978 (Section 1)

It is an offence to take, permit to be taken, make, possess, show, distribute or advertise indecent images of children in the United Kingdom. A child for these purposes is anyone under the age of 18. Viewing an indecent image of a child on your computer means that you have made a digital image. An image of a child also covers pseudo-photographs (digitally collated or otherwise). A person convicted of such an offence may face up to 10 years in prison.

Obscene Publications Act 1959 and 1964

Publishing an “obscene” article is a criminal offence. Publishing includes electronic transmission.

Protection from Harassment Act 1997

A person must not pursue a course of conduct, which amounts to harassment of another, and which he knows or ought to know amounts to harassment of the other.

A person whose course of conduct causes another to fear, on at least two occasions, that violence will be used against him is guilty of an offence if he knows or ought to know that his course of conduct will cause the other so to fear on each of those occasions.

Internet Safety Rules Infants and Juniors

Lunt's Heath Primary School Internet Safety Rules

Think then Click

These rules help us to stay safe on the Internet

We only use the internet when an adult is with us.

We can click on the buttons or links when we know what they do.

We can search the Internet with an adult.

We always ask if we get lost on the Internet.

We can write and send polite and friendly messages to people that we know.

We log in using our own user name and password.

Please read and talk through these rules with your parents.
Keep them near to your computer, if you have one at home.

Lunt's Heath Primary School

e-Safety Rules

All pupils use computer facilities including Internet access as an essential part of learning, as required by the National Curriculum. Both pupils and their parents / carers are asked to sign to show that the e-Safety Rules have been understood and agreed.

Pupil:

Class:

Pupil's Agreement

- I have read and I understand the school e-Safety Rules.
- I will use the computer, network, mobile phones, Internet access and other new technologies in a responsible way at all times.
- I know that network and Internet access may be monitored.

Signed:

Date:

Parent's Consent for Web Publication of Work

I agree that my son / daughter's work may be electronically published.

Parent's Consent for Internet Access

I have read and understood the school e-safety rules and give permission for my son / daughter to access the Internet and use the Learning Platform. I understand that the school will take all reasonable precautions to ensure that pupils cannot access inappropriate materials, but I appreciate that this is a difficult task.

I understand that the school cannot be held responsible for the content of materials accessed through the Internet. I agree that the school is not liable for any damages arising from use of the Internet facilities.

e-Safety Rules for Key Stage 2

- We ask permission before using the Internet.
- We only log in using our own user name and password.
- We must keep our passwords private.
- We only use websites that an adult has chosen.
- We tell an adult if we see anything we are uncomfortable with.
- We immediately close any webpage we are not sure about.
- We only e-mail people an adult has approved.
- We send messages that are polite and friendly.
- We never give out personal information such as name, address, telephone number, passwords or give out photographs.
- We never arrange to meet anyone.
- We do not open e-mails sent by anyone we don't know.
- We do not use Internet chat rooms.

Please read and talk through these rules with your parents.
Keep them near to your computer, if you have one at home.

Appendix B

Acceptable Use Statement For Staff ~ Lunt's Heath Primary School

Acceptable Use Policy Statement for Staff

To ensure that adults working in school are fully aware of their professional responsibilities when using the Internet, e-mail and associated technologies, you will be asked to sign this acceptable use policy statement.

- I will comply with the school's e-Safety Policy
- I understand that my use of the school network, the Internet and e-mail maybe monitored and recorded to ensure policy compliance
- I understand that my own use of the Internet or social networking sites should not in any way threaten the reputation of the school or any member of the staff or community
- E-mail and any form of communication should always be written in a professional language as would be for letters or other media
- I understand that use of school Internet access for business, profit, advertising or political purposes is strictly forbidden
- I will not access inappropriate materials, such as pornography, racist or any other offensive material
- I shall not access personal e-mail or social networking sites during school time
- I will not give anyone access to my login details for the school network and learning platform
- I shall not install any software, hardware without permission or use a USB pen drive without first checking it is virus free
- I will ensure that personal data is stored securely and is used appropriately whether in school, taken off the school premises or accessed remotely
- I will not reproduce copyright materials without acknowledging the source, or gaining permission from the owner when appropriate.
- I will supervise pupils accessing the Internet and watch the accidental access to inappropriate materials and report any incidents to the e-safety coordinator or Head teacher
- I will ensure that communications with pupils, including e-mail, messaging and social network through the learning platform are professional and cannot be misunderstood or misinterpreted

- I will promote e-safety with pupils in my care ensuring they develop a responsible attitude to using the Internet and associated technologies safely.

Use of Portable Equipment

The school provides portable IT equipment such as laptop computers, tablets and digital cameras to enhance the children's education and to allow staff to make efficient use of such equipment to enhance their own professional activities.

Exactly the same principles of acceptable use apply as in the Acceptable Use Statement above.

- Equipment may be in the care of a specific individual, but it is expected that all staff may wish to benefit from the use of a laptop computer and access should be negotiated with the individual concerned. Any difficulties should be referred to the ICT co-ordinator;
- I understand that the IT equipment is for use offsite. Note: our school insurance policy provides cover for equipment taken offsite, provided it is looked after with due care, i.e. not left in view on a car seat etc;
- I will not use the IT equipment for personal use and under no circumstances will I access social networking sites.
- I will ensure that no unsuitable photographs / material is available for public view on my social networking site.
- If I am away from school for a prolonged period I agree to return the IT equipment to school.
- If I leave the employment of the school I will return any equipment;
- I will not install any other software, whether licensed or not, on my teacher laptop.

A violation of the above code of conduct will result in:

1. Prevention of access to the school's network.
2. Additional disciplinary action where appropriate.
3. Involvement of the Police or Local Authority when applicable.

I have read, understand and accept the Acceptable Use Policy Statement For Staff.

Appendix C

Parental permission form for use of photos or videos etc in newsletter, the learning Platform, DVDs etc

Lunt's Heath Primary School

Use of Photographic, Digital & Video Images in School

INTRODUCTION

Schools need and welcome positive publicity. Children's photographs add colour, life and interest to displays of school activities. Making use of photographs in school publicity material can increase pupil motivation and staff morale and help parents and the local community identify and celebrate the school's achievements.

Photographs must, however, be used in a responsible way. Schools need to respect children's and parents' rights of privacy and be aware of potential child protection issues.

This policy has been developed after taking into account the advice of the LEA. It is a policy that seeks to balance the potential risks against the advantages of promoting the school in a colourful and attractive way.

CHILD PROTECTION ISSUES

Risk can occur when individual pupils can be identified in photographs. Providing the name and the photograph of a pupil in a publication or on a website allows for the possibility of people outside the school identifying and then contacting pupils directly.

The school follows the LEA guidelines for child protection and parents, children and other adults who are aware of any abuse or inappropriate contact with children that may be connected with publicity material should report this immediately to the Headteacher or Deputy Headteacher.

APPROPRIATE USE OF IMAGES

Lunt's Heath Primary School adopts the following guidelines when using the photographs of children in school publicity materials, including use of images or names on newsletters, displays, school prospectus and any future school website:

- If the child is named, their photograph is not used.
- If a photograph is used, the child is not named.
- Only photographs of children appropriately dressed are used. This normally means school uniform. Care is taken when using photographs of children participating in sports activities. We do not use photographs of children taking part in swimming events.

- If parents wish their child's name to be associated with a photograph, to celebrate a success for example, the school will seek additional permission for the child to be named.

NEWSPAPERS

The use of photographs in newspapers is controlled through relevant industry codes of practice as well as the law. In this way a check is put on the potential improper use of images of children by the press. The school aims to ensure that all press photographers on the premises are there at the request of the Headteacher and are aware of the school's policy. However, it is now often the case that schools submit their own reports and photographs for newspapers to publish.

The majority of photographs for publication in local newspapers are of groups of children and do not include names. Occasionally newspapers will want to include the names of pupils in photographs that they intend to use. The school will contact parents to obtain permission if the newspaper wishes to use both the name and photograph of a child. Most parents are delighted to see their children's faces in their local newspaper.

It may be that newspapers will refuse to publish photographs without names of pupils. They point out that 'without names, pictures are of limited interest to local newspapers'. This might mean offering only those children whose parents are happy for publication of photographs and names for inclusion in any photo opportunities.

TEAM PHOTOGRAPHS

On some occasions a team will win an event and local newspapers may wish to publish photographs with names. In this situation the school will adhere to the following:

- If all parents are agreeable and give consent to allow team photographs and full names then the publication can occur.
- If a parent is not happy to have a child's name printed on a photograph then consideration will be given to requesting a publication with no names.
- If parents of a child have indicated that the child is vulnerable and should not have a photograph printed then a team photograph will not be appropriate.

WEBSITES

When using photographs on websites, the school will follow the same rules as other publicity materials. We will not name individual children and identify them in photographs.

PARENTS FILMING or TAKING PHOTOGRAPHS

Parents may want to photograph or video at a school event, such as Christmas Services. This is a valuable part of school life and can be very rewarding for both the family and school. However, the school reserves the right to ask parents not to take photographs or use videoing equipment if it disrupts an event e.g. flash photography during a performance or the school feels the images may be used inappropriately.

Parents are not permitted to take photographs or to make a video recording for anything other than their personal use. Recording or photographing other than for private use would require the consent of the other parents whose children may be captured on the film.

The school will make every effort to ensure that people with no connection to the School do not have any opportunity to film covertly. Staff have the authority to quiz anyone they do not recognise who is using a camera or video recorder at events and productions.

The advancement of modern technology is such that the school will not always be aware that filming or photography may be taking place. The ever decreasing size of digital cameras and camera phones makes it impossible for the school to detect all photography taking place..

PARENTAL CONSENT

Lunt's Heath Primary School respects the right of parents and carers to withhold consent from their child being photographed or videoed during school events, such as performances, assemblies, sports days and as part of curriculum activities.

Due to the number of occasions during a pupil's time at school that the School may wish to photograph or video the pupil, the School will seek the consent of parents and carers only once. This policy and consent will cover the whole of the pupil's intended time at the school.

If at any time a parent wishes to withdraw the consent they should do so in writing.

The consent of a parent or carer will normally be obtained in writing. However, verbal consent may be acceptable in specific circumstances, when it may not be possible to obtain written consent. If verbal consent is obtained it will be recorded in writing by the member of staff obtaining the consent.

Having read the School Policy on the use of Photographic and Video Images in School please complete and return the attached form to indicate whether or not you wish your child's photographs to be used in the way described in this policy.

Lunt's Heath Primary School

CONSENT FORM FOR TAKING, STORING AND USING PHOTOGRAPHIC AND VIDEO IMAGES OF SCHOOL PUPILS

Name of Child: _____

Date of Birth: _____

I have read and understood the School's Policy Statement on the Use of Photographic and Video Images in School.

1. I do / do not give permission for my child to appear in photographs used for school publicity eg. school prospectus, displays, newsletters. I understand that my child's name will not appear with their photograph.
2. I do / do not give permission for my child's photograph to be used on the school website. I understand that my child's name will not appear with their photograph.
3. I do / do not give permission for my child to be recorded on video for use by the school.
4. I do / do not give permission for my child to appear in photographs taken to publicise the school by the local press. I understand that permission will be sought if the newspaper wishes to include names with a photograph.
5. I understand that if I, or a member of my family, take photographs of, or video, a school event it is for personal use only. I also understand that the school can ask that photographic equipment not be used if it disrupts the event or is considered inappropriate.
6. I have noted that I can withdraw my consent in writing at any time if a specific use causes concern.
